Tab. AMCRON-D

A drug of choice for control of dysentery and diarrhoea.

Each 300 mg film coated Tab. of AMCRON-D contains :

Kutaj Ghana .....100 mg	Tamra Bhasma .....15 mg
Belgiri Ghana .....30 mg	Shunthi Choorna.....10 mg
Daruharidra Ghana .....30 mg	Marich Choorna .....10 mg
Murudsheng Ghana .....25 mg	Pippali Choorna .....10 mg
Shankhavati.....70 mg	

Processed with Saunf, Musta, Jeerak & Rason.

Pharmacological Action :

- It has the best antidiarrhoeal action as it contains Kutaj Ghana, Belgiri Ghana, Daruharidra Ghana & Shunthi Choorna
- It is a good remedy for intestinal colic and flatulence as it contains Murudsheng Ghana, Shankhavati, *Trikatu* & Kutaj Ghana
- It acts as digestive and stomachic as it contains Shunthi, Marich, Pippali Choorna & Tamra Bhasma
- It has a very effective antidysenteric property as it contains Kutuj Ghana.
- It also acts as anti microbial and thereby reduces the infection as it contains Daruharidra Ghana & Shankhavati.

AMCRON-D

Indications : Acute as well as chronic diarrhoea and dysentery, Amoebiasis, Irritated Bowel Syndrome, etc.

Dosage : Adults : 2 Tabs. twice a day.
Children : 1 Tab. twice a day.
No contra indications and no side effects.

Presentation : Bottle pack of 60 Tabs. & Blister strip

Tab. IMPROLIV

Normalises liver function and promotes healthy life.

Each 300 mg film coated Tab. of IMPROLIV contains :

Punarnava Ghana	20 mg	Sharpunkha Ghana	20 mg
Katuka Ghana	15 mg	Bhringaraj Ghana	15 mg
Guduchi Ghana	20 mg	Saptarangi Ghana	15 mg
Daruharidra Ghana	15 mg	Kakmachi Ghana	15 mg
Triphala Ghana	20 mg	Yavakshar Choorna	40 mg
Tamalaki Ghana	20 mg	Navayas Loha	40 mg
Kalmegh Ghana	15 mg	Tamra Bhasma	15 mg
Haridra Ghana	15 mg		

Processed with Kumari Swaras, Apamarg and Dhanyak.

Pharmacological Action :

- It stimulates hepato cellular regeneration as it contains Tamalaki Ghana.
- It has a very effective digestive, stomachic and appetiser action and it improves liver metabolism as it contains Katuka Ghana, Bhringaraj Ghana, Tamalaki Ghana and Guduchi Ghana.
- It normalises enlarged liver and spleen as it contains Yavakshar Choorna, Tamra Bhasma, Triphala Ghana & Sharpunkha Ghana.
- It exerts potent anti-inflammatory action as it contains Daruharidra Ghana, Punarnava Ghana, Triphala Ghana & Haridra Ghana.
- It helps to reduce the level of Bilirubin as it contains Katuka Ghana.
- It corrects anaemia and controls hepatic pyrexia as it contains Navayas Loha Choorna, Tamra Bhasma, Kakmachi Ghana & Guduchi Ghana.
- It is also effective in liver cirrhosis as it contains Punarnava Ghana.
- It is mild laxative, diuretic and exerts proven antimicrobial action due to Triphala Ghana, Punarnava Ghana, Kalmegh Ghana & Haridra Ghana.

IMPROLIV

Indications	:	Anorexia, Indigestion, Hepatitis, Anaemia. Hepatomegaly & Spleenomegaly.
Dosage	:	2 Tabs. twice a day. No contra indications and no side effects.
Presentation	:	Bottle pack of 60 Tabs. & Blister strip

Syp. IMPROLIV

IMPROLIV provides a shield to protect liver & health from various ailments.

Each 5 ml of IMPROLIV contains :

Rakta Punarnava	100 mg	Yashtimadhu	50 mg
Dhanyaka	100 mg	Haritaki	50 mg
Guduchi	80 mg	Bibhitaka	50 mg
Daruharidra	50 mg	Amalaki	50 mg
Haridra	50 mg	Shunthi	12 mg
Saptarangi	50 mg	Pippali	12 mg
Chitraka	50 mg	Marich	12 mg
Tamalaki	50 mg	Kakamachi	12 mg
Musta	50 mg	Kalmegh	12 mg
Rohitak	50 mg	Katuka	10 mg
Sharpunkha	50 mg	Kumari	0.5 mg
Bhringaraj	50 mg		

Pharmacological Action :

- It acts very effectively as digestive, carminative, stomachic & appetiser as it contains Shunthi, Marich, Pippali, Chitrak, Haridra, Bhringaraj, Katuka, Dhanyaka, Musta, Amalaki, Tamalaki, Guduchi & Kalmegh.
- It improves portal & hepatic blood circulation as it contains Rohitak, Punarnava, Chitrak, Saptarangi, Haridra, Daruharidra, Sharpunkha, Tamalaki, Bhringaraj, Bibhitaka, Pippali, Kakamachi & Kumari.
- It exerts anti inflammatory action as it contains Haridra, Shunthi, Kalmegh, Katuka, Kakamachi, Punarnava, Daruharidra, Chitrak, Tamalaki, Sharpunkha, Bhringaraj, Yashtimadhu & Bibhitaka.
- It reduces the level of Bilirubin as it contains Amalaki, Katuka & Kumari.
- It acts effectively as chologogue & purgative as it contains Guduchi, Katuka, Kalmegh, Kumari, Daruharidra & Sharpunkha.
- It corrects anaemia as it contains Punarnava, Guduchi, Haridra, Chitrak, Rohitak, Bhringaraj, Pippali, Kalmegh, Katuka & Amalaki.
- It exerts anti emetic action as it contains Amalaki, Yashtimadhu & Kumari.
- It exerts very effective diuretic action as it contains Punarnava, Dhanyaka, Saptarangi, Musta, Yashtimadhu & Sharpunkha.

Indications : Anorexia, Indigestion, Hepatitis, Anaemia, Hepatomegaly & Spleenomegaly.

Dosage :
Infants : 5 ml twice a day.
Children : 10 ml thrice a day.
Adults : 15 ml thrice a day.
No contra Indications & no side effects. Safe for all ages.

Presentation : 100 ml. & 200 ml Pet Bottles.

IMPROLIV

Tab. EASILAX

A reliable, non habit forming mild laxative.

Each 300 mg film coated Tab. of EASILAX contains :

Trivritta Ghana .....100 mg

Aragwadha Ghana.....100 mg

Haritaki Ghana.....100 mg

Processed with Erandmool Quath & Ajwain Phant.

Pharmacological Action :

EASILAX

- It is stomachic and digestive as it contains Trivritta Ghana & Haritaki Ghana.
- It acts as a carminative and thereby reduces flatulence as it contains Aragwadha Ghana & Haritaki Ghana.
- It is non habit forming and non griping.
- It is free from any side effect and contra indications.
- It does not develope dryness & hence maintains smoothness of intestinal mucosa.

Indications : Constipation, Gastro intestinal upsets etc.

Dosage : 2 Tabs. before retiring with lukewarm water.

Presentation : Bottle pack of 60 Tabs. & Blister strip

Tab. SUVINA

Improper digestion of food intake results in *'Aam'* which is the root cause of many diseases like obesity, rheumatism, liver malfunction, heart disease, etc. SUVINA, works effectively on such multiple disorders.

Each 300 mg film coated Tab. of SUVINA contains.
Shunthi Ghana.....140 mg
Musta Ghana .....60 mg
Vidanga Ghana.....100 mg

Processed with kulattha quath.

Pharmacological Action :

- It stimulates gastric function, intensifies salivary flow & secretion of gastric juices which promote digestion.
- It acts as stomachic.
- It acts as *Aampachak.*
- It helps to eliminate toxins from the body.
- In obesity, it improves the liver function, promotes proper digestion & checks the deposition of excessive fat & balances appetite.

- It relaxes distention, painful discomfort & itching at the junction of rectum & anus.

VENOSIL

Indications : Piles (internal & external), Bleeding piles.

Dose : 2 Tabs. twice a day after meals preferably with fresh buttermilk.

Presentation : Bottle pack of 60 Tabs. & Blister strip

Tab. LIPICON

An effective & safe poly - herbal compound in Hyperlipidaemia.

Each 300 mg film coated Tab. of LIPICON contains.

Arjunsal Ghana .....100 mg

Shuddha Guggul .....100 mg

Rason..... 50 mg

Bramhi Ghana..... 50 mg

Pharmacological Action :

- It decreases Triglycerides & body lipids significantly.
- It increases HDL Cholesterol.
- It decreases the conversion of excessive carbohydrates into fats.
- It stimulates function of cardiac muscles.
- It acts as cardiac tonic.
- It controls Hypertension & associated multiple symptoms.
- It reduces the risk of Ischaemic heart disease & arteriosclerosis.
- It reduces serum levels & effectively acts in lowering total cholesterol & various lipid fractions known to be arterogenic.

LIPICON

Indications : Hyperlipidaemia, Ischaemic Heart Disease, Obesity, Hypertention, Palpitation of Heart etc.

Dosage : 2 Tabs. twice a day after meals.

Presentation : Bottle pack of 60 Tabs. & Blister strip

Tab. ANXENIL

Safe & non-habit forming drug for Anxiety related disorders.

Each 300 mg film coated Tab. of ANXENIL contains :

Jatamansi Ghana.....100 mg	Yashtimadhu Ghana .....15 mg
Brahmi Ghana.....30 mg	Parasika Yavani .....100 mg
Ashwagandha Ghana ..25 mg	Praval Pishti .....30 mg

Processed with Shigarupatra Swaras, Durva Swaras, Vidanga Quath & Manjishta Quath.

Pharmacological Action :

- It reduces mental stress and strain as it contains Jatamansi Ghana, Brahmi Ghana & Ashwagandha Ghana.
- It provides undisturbed calm sleep as it contains Jatamansi Ghana, Parasika Yavani, Brahmi Ghana & Ashwagandha Ghana.
- It doesn't alter heart rate, blood pressure & respiratory function.
- It restores neuro transmitence which acts to calm down mental irritation & promotes sound & peaceful sleep.

ANXENIL

Indications : Insomnia, Mental fatigue, Depression, Anxiety Neurosis, Hypertension etc.

Dosage : 2 Tabs. twice a day.
No contra indication & no side effects

Presentation : Bottle pack of 60 Tabs. & Blister strip

Tab. BRENOL

Natural Herbal brain booster which increases grasping capacity and improves brain functions.

Each 300 mg film coated Tab. of BRENOL contains :

Amalaki Ghana	50 mg	Vacha Ghana	30 mg
Haritaki Ghana	50 mg	Yashtimadhu Ghana	10 mg
Brahmi Ghana	30 mg	Jatamansi Ghana	10 mg
Shankhapushpi Ghana	30 mg	Nirgundi Ghana	10 mg
Vidanga Ghana	30 mg	Shatavari Ghana	30 mg
Musta Ghana	20 mg		

Processed with Shunthi Quath, Marich Phant, Pippali Phant and Bibhitak Quath

BRENOL

Pharmacological Action :

- It is the best tonic for brain as it contains Brahmi Ghana, Jatamansi Ghana & Shankhapushpi Ghana.
- It improves concentration capacity and works as a good nervine tonic as it contains Brahmi Ghana, Shankhapushpi Ghana, Jatamansi Ghana and Nirgundi Ghana.
- It improves memory & can be used in memory degradation due to ageing process as it contains Shatavari Ghana, Vidanga Ghana, Amalaki Ghana.
- It can also be used in slurred or irrelevant speach as it contains Vacha Ghana & Yashtimadhu Ghana.
- It corrects impaired functions of brain in mentally retarded patients.
- It can be used in epilepsy & parkinsonism as it contains Nirgundi Ghana, Jatamansi Ghana, Shankhapushpi Ghana & Brahmi Ghana.

Indications : Lack of Concentration, Mental Irritation, Loss of memory, nervous stress & strain etc.

Dosage : Adults : 2 Tabs. twice a day.
Children : 1 Tab. twice a day.

Presentation : Bottle pack of 60 Tabs. & Blister strip

Syp. BRENOL

BRENOL is an effective brain tonic for all ages.

Each 5ml of Brenol syrup contains :

Bramhi	100 mg	Shankhapushpi	100 mg
Shatawari	100 mg	Jatamansi	50 mg
Vacha	50 mg	Yashtimadhu	50 mg
Musta	50 mg	Vidanga	50 mg
Nirgundi	50 mg	Haritaki	50 mg
Bibhitak	50 mg	Amalki	50 mg

Pharmacological Action :

- It improves grasping capacity & concentration as it contains Brahmi & Shankpushpi.
- It develops integrated interaction of the cognitive motor & language function of the brain, as it contains Shankhpushpi.
- It increases adaptogenic attitude towards stress & strain of the daily life as it contains Brahmi & Shatawari.
- It reduces mental irritation & induces calm sleep as it contains Jatamansi & Brahmi.
- It corrects impaired mental function & prevents loss of memory.
- It is useful in correcting slurred or irrelevant speech as it contains Vacha & Yashtimadhu.
- It helps to normalize the brain function of the mentally retarded babies as it contains Vidanga, Nirgundi & Brahmi.

BRENOL

Indications : Poor concentration, poor memory, anxiety, depression, mood Swinging, mental strain & stress, mental retardation, epilepsy, etc.

Dosage : Infants - 5ml twice a day

Children- 10 ml twice a day

Presentation : 200 ml Pet bottle.

Tab. DIREM

For better & safe management of Blood Sugar level.

Each 300 mg film coated Tab. of DIREM contains :

Amalaki Ghana.....40mg	Haridra Ghana.....40mg
Daruharidra Ghana.....20mg	Gudmar Ghana.....25mg
Jambhulbeej Ghana 25mg	Methi Ghana.....25mg
Guduchi Ghana 20mg	Kadunimpatra Ghana 20mg
Saptarangi Ghana 20mg	Vijaysar Ghana.....20mg
Shudha Shilajit 25mg	

Processed with Triphala & Gokshur Quath.

Pharmacological Action :

- It increases the peripheral utilization of glucose & also increases the hepatic & muscle glycogen as it contains Haridra Ghana, Gudmar Ghana & Karle Ghana.
- It promotes ß-cell regeneration, correction & increases the C-peptides level as it contains Jambhulbeej Ghana, Saptarangi Ghana & Vijaysar Ghana.
- It exerts insulin like action by reducing gly haemoglobin level by normalizing the micro albumin urea & modulating the lipid profile as it contains Methi Ghana Kadunimpatra Ghana, Shudha Shilajit & Daruharidra Ghana.
- It acts effectively in poly urea & diavetic neuropathy as it contains Daruharidra Ghana.
- It acts as antioxidant & thereby protects the b-cells & other vulnerable tissues from oxidative stress as it contains Guduchi Ghana & Amalki Ghana.
- It stimulates the functions of pancreas as it contains Guduchi Ghana, Amalaki Ghana, Methi Ghana, Haridra Ghana, Karle Ghana & Saptrangi Ghana.

DIREM

Indications : Diabetes mellitus, Non Insulin Dependent Diabetic mellitus, NIDDM with hyperlipidemia, poly urea & diabetic neuropathy can be safely used as an adjuvant in insulin-dependent diabetes mellitus.

Dosage : 1 Tab. twice / thrice a day before meals.

Preservation : Bottle pack of 60 Tabs. & Blister strip

Tab. OBETREAT

When the Body tends to overweight, OBETREAT reduces unwanted fats.

Each 300 mg film coated Tab. of OBETREAT contains :

Shuddha Guggal.....80 mg	Loha Bhasma .....20 mg
Shuddha Shilajit.....25 mg	Guduchi Ghana .....15 mg
Apamargakshar.....20 mg	Tamra Bhasma.....15 mg
Haritaki Ghana.....20 mg	Shunthi Choorna .....15 mg
Katuka Ghana.....15 mg	Marich Choorna.....15 mg
Abhrak Bhasma .....10 mg	Pippali Choorna.....15 mg
Yavakshar .....25 mg	Vidang Ghana .....10 mg

Processed with Castor oil, Apamarga Quath and Shigarupatra Swaras.

OBETREAT

Pharmacological Action :

- It acts as good *'Medolekhan'* i.e. fat scrubber as it contains Shuddha Guggul, Shuddha Shilajit, Apamargakshar, Tamra Bhasma & Yavakshar.
- It has a mild laxative action which causes elimination of accumulated waste products and toxins as it contains Haritaki Ghana, Katuka Ghana & Vidang Ghana.
- It contains bitter and aromatic tonics like Guduchi Ghana, Shunthi Choorna, Marich Choorna, Pippali Choorna & Katuka Ghana which helps to compensate the weakness due to weight loss.
- It contains haematinics like Loha Bhasma, Tamra Bhasma & Abhrak Bhasma which provide sufficient iron and strength to the patient.
- It helps to control cholesterol level.
- It decreases the conversion of excessive carbohydrates into fats. So significantly reduces weight, body lipid and appetite as it contains Shuddha Guggul, Apamargakshar and Yavakshara.

Indications : Obesity, Hyperlipidemia

Dosage : 2 Tabs. thrice a day, minimum for three months. No contra indications and no side effects.

Presentation : Bottle pack of 60 Tabs. & Blister strip

RHUMAPAR OIL

Non- staining Rub-n-relief liniment for joint pain.

Each 100 ml of RHUMAPAR OIL Contains

Mahanarayan Tel .....15 ml	Camphor .....2 gm
Nirgundi Tel.....10 ml	Lahsun.....2 ml
Terpene Oil .....10 ml	Castor Oil.....5 ml
Eucalyptus Oil .....5 ml	Mustard Seed Oil.....Q.S.
Gandhapura Tel .....5 ml	

RHUMAPAR OIL

Pharmacological Action :

- It promotes circulation of blood by exerting Vascodialatory effect.
- It reduces swelling & stiffness of joints.
- It relaxes tendon muscles.
- It's regular use stops degeneration of tissues.
- It gives faster relief in joint pains.

Indications : For Joint Pain, Muscular Sprain, Lumbago, Low Back Pain, Sport Injuries etc.

Direction For Use : Apply to the affected area of the body externally. Massage gently 2 or 3 times a day.

Presentation : 30 ml, 50 ml & 100 ml Pet bottle.

Tab. RHUMAPAR

A herbal remedy for Rheumatoid arthritis.

Each 300 mg film coated Tab. of RHUMAPAR contains :

Maharasnadikashaya Ghana	75 mg	Chitrak Ghana	15 mg
Mahayogaraj Guggul	75 mg	Tagar	25 mg
Nirgundi Ghana	30 mg	Shuddha Guggal	30 mg
Trivritta Ghana	20 mg	Punarnava Ghana	30 mg

Processed with Shunthi Quath, Lasun Swaras & Castor Oil.

Pharmacological Action :

- It has a good analgesic action as it contains Tagar, Nirgundi Ghana & Chitrak Ghana.
- It also acts as an anti inflammatory agent as it contains Shuddha Guggul, Maharasnadikashaya Ghana & Nirgundi Ghana, Punarnava Ghana & Mahayogaraj Guggul.
- It stops further degenerative changes in connective tissues and helps to restore the function of joints as it contains Mahayogaraj Guggul.
- It acts as good Aamapachak and hence effective in Aamvat as it contains Chitrak Ghana, Shunthi etc.

RHUMAPAR

Indications : Rheumatoid Arthritis, Gout, Rheumatic fever, Muscular pain, sprain, spondylisis & chronic Rheumatism.

Dosage : 2 Tabs twice a day.

Presentation : Bottle pack of 60 Tabs. & Blister strip

Syp. DADIMAVLEHA

Ideal *'Pittashamak'* and summer drink for all ages.

Each 5 ml of Dadimavleha contains :

Dadima .....1.66 ml

Syrup Base ..... q.s.

Pharmacological Action :

- Due to its *Madhur Vipak*, it acts as best antacid & acts as good tonic during debility due to prolonged illness.
- It offers soothening effect on the mucous membrane of the stomach and reduces inflammation of the same.
- It reduces inflammation and redness of eyes due to *Pittaprakop*.
- It helps to promote digestion and appetite.
- It reduces burning micturation.
- It is useful as instant energetic for over exerted person or patient as it contains natural Sucrose and Vitamins.
- It acts as apphrodiziac.
- It can be used in anemia as it provides various useful minerals.

DADIMAVLEH

Indications : General Debility, Burning Micturation, burning sensation, Loss of taste, Loss of appetite, redness of eyes, Heat stroke during summer.

Dosage : Children - 5ml twice a day.

: Adults - 10ml twice a day.

Presentation : 100 ml and 200 ml Pet bottles.

Tab. HEMADA

Stimulets Haemo-poetic System by providing natural Herbomineral Hematinics.

Each 300 mg film coated Tab. of HEMADA Contains :

Abhrak Bhasma 20mg	Roupya Bhasma 20mg
Mandur Bhasma.....50mg	Amalaki Ghana 70mg
Guduchi Ghana.....60mg	Shweta Sariva Ghana.....50mg
Shudhha Shilajit.....30mg	

Pharmacological Action :

- Roupya Bhasma provides all the essential haemopoetic factors & thereby stimulates haemopoetic system.
- Abhrak Bhasma with its welknown metabolic action stimulates bone marrow & spleen function.
- Amalki Ghana with its natural Vitamin-C or Ascorbic Acid enables to derive iron from Mandur Bhasma which is highly assimilable & non irritating & non constipating.
- Amalaki Ghana & Guduchi Ghana act as antioxidants, antibacterial & hepatoprotective against cellular toxicity.
- It acts as a tonic which ensures faster recovery in debility due to anaemia as it contains Amalki Ghana, Guduchi Ghana, Shwetasariva Ghana & Shuddha Shilajit.
- Shuddha Shilajit provides natural Iron, Zinc & Calcium & along with Shwetasariva Ghana, stimulates kidney function & thereby reduces blood toxins.
- Guduchi Ghana & Amalki Ghana with its natural Vitamin-C along with Roupya Bhasma protect from infection by providing antibiotic action.

HEMADA

Indications : General Debility, Iron Deficiency, Anaemia, Anaemia in Pregnancy, Mal-nutritional anaemia.

Dosage : 1 Tab. twice a day.

Presentation : Bottle pack of 60 Tabs. & Blister strip

Syp. NUTRAGEN

A Nutritive, general Herbal Tonic of choice for all ages.

Each 5 ml of NUTRAGEN contains :

Amalaki	100 mg	Vidanga	50 mg
Chitrak	100 mg	Jatamansi	50 mg
Guduchi	100 mg	Bhringraja	50 mg
Vidari Kanda	100 mg	Chandrushur	50 mg
Ashwagandha	75 mg	Shwetasariva	25 mg
Shatawari	75 mg	Methika	25 mg
Gokshur	50 mg	Haritaki	25 mg
Manjishtha	50 mg	Bibhitak	25 mg
Arjunsal	50 mg		

Pharmacological Action :

- It improves Appetite as it contains Amalaki, Chitrak, Guduchi, Shatawari, Vidanga, Jatamansi, Bhringraja, Shwetasariva & Haritaki.
- It stimulates gastric, hepatic & pancreatic secretions & peristalsis which promotes digestion as it contains Amalaki, Methika, Jatamansi, Guduchi, Vidari Kanda & Bhringraja.
- It promotes normal evacuation of bowels as it contains Triphala, Guduchi & Vidanga.
- It acts as carminative due to Methika, Vidanga, Jatamansi, Chandrushur, Bhringraja, Chitrak & Vidari Kanda.
- It reduces mental stress & strain as it contains Ashwagandha, Jatamansi, Shatawari, etc.
- It induces peaceful sleep as it contains Jatamansi & Ashwagandha.

A very effective, time tested herbo mineral combination which promotes normal functioning of the kidney.

Each 650 mg Tab. of URESTIN contains :

Punarnava Ghana.....40 mg	Sag Beej.....30 mg
Pashanbhed Ghana.....30 mg	Parasika Yavani .....100 mg
Gokshur Ghana .....30 mg	Gokshuradi Guggul .....60 mg
Shwetasariva Ghana .....40 mg	Chandraprabha Vati .....100 mg
Manjishtha Ghana.....50 mg	Shuddha Shilajit .....40 mg
Yashtimadhu Ghana .....40 mg	Dagadiber Bhasma .....30 mg
Talamuli Ghana .....60 mg	

Processed with Palashpushpa Quath.

Pharmacological Action :

- It exerts very good diuretic action as it contains Punarnava Ghana, Gokshur Ghana, Shwetasariva Ghana & Talmuli Ghana.
- It is very effective in disurea as it contains Chandraprabha Vati, Shuddha Shilajit & Gokshuradi Guggul.
- It acts as an effective analgesic in pains due to urine stone and Urinary Tract Infection as it contains Parasika Yavani & Sag Beej.
- It overcomes Urinary Tract Infection and Inflammation as it contains Manjishtha Ghana, Yashtimadhu Ghana, Gokshuradi Guggal & Chandraprabha Vati.
- It enables to dissolve urine stone as it contains Pashanbhed Ghana, Shuddha Shilajit, Gokshur Ghana, Dagadiber Bhasma, Gokshuradi Guggal & Chandraprabha Vati.
- It stops burning micturation as it contains refrigerents like Shwetasariva Ghana, Manjistha Ghana & Chandraprabha Vati.

Indications : Urinary disorders, disurea, burning micturation, Urinary Tract Infection and Inflammation, renal calculi.

Dosage : 1 to 2 Tabs. thrice a day.

Presentation : Bottle pack of 60 Tabs. & Blister strip

GHANA SATWA

Chaitanya Pharmaceuticals Pvt. Ltd. is a pioneer Company in production & marketing of the Ghana Satwa, i. e. concentrated Aqueous Extracts of Single Herbs.

Chaitanya is committed towards herbal healthcare with evidence of effective results, for every physical and mental weakness. We give formulations in a widely acceptable form which is easy to carry, palatable, and prepared by increasing potency of crude herbs , to which we refer as GHANA SATWAS.

Ghana Satwa is extraction of water soluble part of crude herb to expected dosage forms like powder / tablets with the help of traditional method called Kadha. The water is then evaporated from the preparation and then dried to convert into powder. On this traditional concept the production process is carried out with the help of latest technology.

Presently, we offer more than 100 varieties of Ghana individually, each having its own advantages. In our proprietory tablets, we have used those extracts which are concentrated in stead of choorna for immediate results within minimum time.

Why Ghana Satwa?

- The Ghana Satwas are calibrated concentrated Dried Extracts.
- They disintegrate within 10 minutes, enabling faster relief.
- Even smaller doses are very effective because of higher concentration ratio.
- Because of tablet form, they are easy to handle, store and dispense.
- Average shelf life of 36 months.
- Original tastes and flavors are maintained, but no problem of palatability. No harm for higher doses.
